Reading Instruction

The Board supports the following reading goals for the River Valley School District:

1. A well-coordinated developmental reading program shall be made available for students at all grade levels, under the direction of a certified reading specialist.
2. A variety of learning materials and teaching techniques shall be used to accommodate individual student ability and achievement.
3. Each teacher must recognize the role of reading in his/her content area. The teacher is responsible for continuous diagnosis, direct reading instruction and motivation in his/her classroom or content area.
4. A climate for reading will be established within the school that will encourage and develop a lifelong desire and willingness to read.
5. Efforts will be made to gain parental and community involvement in a district-wide concern for quality and quantity reading.
6. The reading program shall be evaluated regularly by the Board and administration in accordance with Wisconsin State Statute 118.015.
