Grade Levels 6-12 Class Size Scheduling

The School Board believes that many factors must be given consideration in the establishment of single section classes. Every effort will be made to maintain classes at a sound economic and educational level.

The Building Principal will review combination sections, alternate year course scheduling, junior and senior year learning options programs, placement of single sections at strategic periods within the school day and other acceptable and appropriate options before requesting permission of the Superintendent and Board of Education to offer classes with less than fifteen (15) students.

Class scheduling must be established prior to the date for staff layoff considerations.
