STUDENT POLICIES GOALS

The River Valley Board of Education wishes to provide an effective educational program for each student. The student's educational development is the central concern of the Board's policies and the administration's regulations.

Therefore, the Board expects the positive involvement of students and staff in the many learning opportunities making up the educational program. Administrators and teachers are expected to devote their time and effort to sound preparation and management of instruction and its many related learning activities. The Board expects a reasonable amount of commitment and effort on the part of all students, commensurate with their ability and skill development. The Board also desires every student to have an opportunity whereby he/she may achieve the maximum benefit from his/her school education.
