School Volunteers

The River Valley School District recognizes that volunteers contribute valuable services to the students and staff. The Board encourages the use of volunteers to enhance communication and cooperation between the students, staff members, and the community.

Any individual who wishes to provide volunteer service to the district excluding current district employees will need to complete a Confidentiality Agreement and a Disclosure Statement with the understanding that a criminal background check will be completed on them. This includes all individuals who volunteer in the schools on a regular basis, and all volunteers who chaperone school sponsored field trips.

Volunteer coaches who provide coaching services need to sign a contract on an annual basis and must be approved by the Athletic Director.

Criminal background checks on all volunteers will be repeated every 5 school years or when deemed necessary.

Volunteers will be covered under the district's liability insurance policy while performing services authorized by the school principal or their direct supervisor (teacher, head coach, head director, or head advisor).

Volunteers are expected to abide by the school district's regulations and rules when performing assigned responsibilities. Principals, teachers, coaches, advisors, and directors will provide the volunteer an introduction to and explanation about their roles and responsibilities. Principals, teachers, coaches, advisors, and directors will make the appropriate handbooks available to volunteers.

The River Valley School District reserves the right to terminate volunteer service at any time.
