

# RIVER VALLEY SCHOOL DISTRICT

*Home of the Blackhawks*

BRIAN KREY  
Business Manager

660 West Daley Street      ≈      Spring Green, Wisconsin 53588      ≈      Phone: 608-588-2551

Dear Parent/Guardian:

To ensure that our students can fully participate in our virtual education, the district will consider providing an Internet access device to households that have demonstrated a need for such a device. Known as wireless hotspots, these devices are provided on loan to the household. They should be used only to provide the student(s) in the household with the ability to access on-line curriculum materials and information relevant to their education.

Based on your response to our District survey, your family has been identified to receive a mobile hotspot to provide internet access outside of school to assist with River Valley’s virtual education. This device will be on loan for the duration of our virtual education and is subject to the agreement below. Please read and discuss this policy with your student, sign and return the form if you agree to participate in this program. The mobile hotspot can be used by all River Valley School District students in your household and can provide wireless connectivity for multiple devices. The District is pleased to offer this resource to qualifying students. If you have any questions, please contact Brian Krey, Business Manager.

A mobile hotspot will be provided to the family named in this document under the following conditions:

- Use of this equipment is intended for educational purposes only.
- Parents/Guardians understand that student’s computer/device activities at home while using a hotspot should be supervised.
- The District prohibits unethical use of the Internet, email, and other media. Violation of this policy may result in the loss of equipment and privileges, and disciplinary action by the District.
  - In instances where the student has put his/her own safety or the safety of others at risk (i.e. sexting or bullying), wireless hotspot privileges will be revoked immediately.
- The family is responsible for the return of the mobile hotspot and the power adapter at the conclusion of our virtual education program.
- The parent/guardian accepts financial responsibility for loss and/or damage resulting from purposeful action or gross negligence.
  - The replacement cost of the mobile hotspot is \$100.00 and is payable to River Valley School District. Replacement Micro-USB power adapters may be purchased by the user via Amazon or local retailers.
- Do NOT attempt to try to repair the internal workings of a wireless hotspot yourself.
  - If the hotspot is not working please contact me first via email or phone.

We, the undersigned student and parent/guardian, wish to participate in the River Valley mobile hotspot program. We do not have internet access at home and agree to return the device should we purchase internet services during the school year. We have read and understand the terms and agree to assume full responsibility for the proper care and educational use of the equipment as described in this document and to assume financial responsibility for costs accrued should the device be lost or damaged.
