Professional Development Update			Glasbrenner shared the Professional Development calendar (handout), which has been shared with the PLC Leadership Teacher Team and the Staff Curriculum and Instruction Development Committee. We continue to make very intentional connections between district goals, building goals, and professional learning.
District Curriculum and Instruction - Renewal and Design			Glasbrenner shared the 5 recommendations from the Staff Curriculum & Instruction Development Committee, the draft of the Curriculum Renewal and Design Plan from last year's committee work. One of the goals identified by the teacher steering committee is to complete this handbook and begin the cycle of improvement for a subject area. Discussion centered around when and which subject to start with.
District Student Assessments			Glasbrenner shared the drafts of the two district goals (one climate goal and one academic goal). He also shared WI Forward Exam longitudinal data and ACT data. The 2021-2022 scores are currently released, but embargoed until November. Administration is evaluating these as well, and the committee will receive an update as available. Discussion centered around focus areas for buildings.
Strategic Plan and Correlation			District goals and actions directly relate to the following items: I.B. Improve our students' achievement, particularly those who are less economically advantaged. I.A.1: Maintain comprehensive programming I.A.2: Update all K-12 curriculum, incorporating the arts, technology, and STEM.
Adjourn	Cates	Nelson	The meeting adjourned at 5.50 pm. Our next meeting will be held December 19, 2022 (5 pm).
