Budget Development Calendar

Below are three timeline charts. The first one lists important dates as they relate to the closing of the current school year. The second shall be followed when developing next year’s budget. **Note:** Each site will have a budget meeting. It is very important for you to attend your building budget meeting. The dates for these meetings will be determined and announced by your Site Administrator. The Site Administrator will also form a budget team to review department budget plans.

The summer projects timeline is listed in the third calendar. Please adhere to these timelines so we may best plan for the students of today and the future.

The following is the 2012-2013 budget manual. Please review before you start budgeting. Below is a generic outline of our budget process.

Budget Procedures

1. Attend budget meeting/follow budget calendar.
2. Work as a department at each site to develop budget needs.
3. Meet with department to finalize budget requests.
4. Have department chair sign off on your budget plan.
5. Site budget team/Site Administrator approves or disapproves. You will be instructed by your Site Administrator to complete your Budget Input Sheets and hand them in by the specified date.
6. Review Site Administrator changes.
7. Receive final approval from the Site Administrator.
8. As a department you will total the dollars approved by your Site Administrator from your rough draft Budget Development Worksheet(s) and enter them onto your original Budget Summary Sheet (one per department/or function number). Turn your Budget Summary Sheets in to your Site Administrator by the specified date.
9. Site Administrator forwards approved **Budget Excel Spreadsheets** to Business Office.
10. Fill out Purchase Requisition Forms from your Budget Development Worksheet(s).

Budget Tips

1. Round-up numbers; do not use cents on budget summary sheet.
2. Use object 551 and 561 only for individual equipment items costing over \$5000.
3. Two bids on furniture and/or equipment are required.
4. Use current catalogs and price sheets sent out in Jan/ Feb 2012. Company discounts and shipping costs will be sent separately to each building.
5. If you need help with the budgeting process, contact Brian Krey or Donna Radel.
6. Send the requisitions for orders you want placed over the summer to Donna Radel at the Business Office by May 11, 2012.
7. Do not include shipping/handling fees in object code 353 (postage). Shipping costs should be added in to the actual cost of the item, i.e., if you are ordering supplies, the shipping should be added to 411.
8. Budgets for **RESALE** items shall be entered on the Budget Development Worksheet. An example of a resale supply is materials purchased specifically to build a birdhouse in class. The birdhouse then becomes the property of the student. Cash receipts from students must equal value of expenditures. Receipts shall be given to building assistant and forwarded on to the Business Office for deposit.

Budget Preparation Responsibility

The following people have the responsibility to prepare the respective 2012-2013 budgets:

Purchasing Process Instructions

- The Purchase Requisition Form will be the only form used this year for ordering. After your item(s) have been approved by your Site Administrator, or Supervisor, on your Budget Development Worksheet(s) you may fill out the purchase Requisition Form and send it to the Business office to Donna Radel. Donna will assign a purchase order number to your requisition and print a hard copy of a purchase order and then submit it to the vendor. If you would like to hand carry the purchase order to the vendor, or call the order in yourself, please make a note under the special instruction section of the purchase requisition form. The purchase order will then be sent directly back to you rather than mailed to the vendor.
- All purchases should be made at the best price available, giving consideration to quality, delivery terms, and conformity to developed specifications and suitability to the requirements of the educational program.
- Please use the most current catalogs and pricing information when ordering. Two quotes are required when ordering 440 non-capital equipment items (desks, chairs, tables, chalkboards, etc.) and 550's and 560's equipment items.
- Vendor information is provided with this Budget Development Manual. Please be sure to check with your office for the catalogs, special order instructions, order sheets and pricing/shipping information for these vendors.
- Local purchases may be made only at Doerre Hardware, Umhoefer Lumber Do-It, Home Town Market, Spring Green Printing, Spring Green Auto Parts and Nina's. These companies have set up a charge account for us and will allow anyone from the school district to purchase a **maximum** of \$30.00 without a purchase order. In order to purchase locally you must fill out the purchase requisition form and have it signed by your Site Administrator or Supervisor. After you make the purchase you must bring a copy of the charge invoice to Donna Radel at the Business Office along with a copy of your signed purchase requisition form.
- Date needed will be very important this year. Please make sure you fill out the school to which you want the materials shipped, and by what date you will need the materials. We are going to have deliveries made directly to each school again this year. A copy of your requisition form will be sent to your building and you will check off the materials as received. The yellow requisition copy should be marked received, signed, and then sent back to Donna Radel at the Business Office.
- Teacher credit cards may be checked out through Donna Radel at the Business Office and can be used to pay for hotels and supplies at conferences. Teacher credit cards **may not** be used to purchase meals. Teacher credit cards may also be used to purchase supplies at stores that do not accept school district purchase orders.
