660 West Daley Street

Spring Green, Wisconsin 53588

Phone: 608-588-2551

343.2

Grade Levels 6-12 Class Size Scheduling

The School Board believes that many factors must be given consideration in the establishment of course offerings. Every effort will be made to maintain classes at a sound economic and educational level.

The Building Principal in collaboration with the school counselors will review combination sections, alternate year course scheduling, junior and senior year learning options programs, placement of classes at strategic periods within the school day, and other acceptable and appropriate options before requesting permission of the District Administrator for course offerings and class sizes.

Class scheduling must be established prior to the date for staff layoff considerations.
