The policy of the River Valley school district states "medications should be administered to school children at home rather than at school whenever possible. School personnel, designated by the school nurse, may administer medications to students under established conditions and appropriate training required by the Department of Public Instruction.

In all instances where prescription medication is to be administered under this policy, the practitioner prescribing the medication has the power to direct, supervise, decide, inspect, and oversee the administration of such medication."

We require a written order from a licensed prescriber and authorization from the parent/guardian for the student to self-administer medication. Please return this form to the school nurse.
