2022-23 School Health Services Annual Report

Brittiney Belche, School Nurse, summarized the annual report. We have 2 nurses and 1 full time assistant and Dr. Furukawa is our medical advisor. There was an increase in office visits over the last couple of years. The nurses also educate staff on health conditions and interventions and train secretaries to help with medication administration. They assist on day field trips and overnight field trips. Referrals are made out as needed and they coordinated with Bridging Brighter Smiles to assist students to get dental care. Jennifer Smith will be replacing School Nurse Jordyn Wendhausen who is resigning to teach at Southwest Tech.

Update on Facilities Study

Kevin Eipperle, FEH Design, and Kyle Kraemer, Kraemer Company, presented the results of the recent community survey regarding facilities. There were nearly 500 responses with 74% support for closing the Early Learning Center in Plain and 59% support for a referendum of \$15 million or more with 24% that do not support a tax increase of any kind. We will need to decide the scope of initial steps and long-term goals with the Facilities Core Committee meeting again in July.

End of Semester Review of Achievement Gap Reduction (AGR) Program

Peterson reviewed the end of semester reports. We focused on grade level goals, but will look at a growth goal in the future to assess students that we want to catch up. Learning was interrupted by COVID and that is evident in results showing delays for those kids who were just starting reading at that time.

Summary of 2022-23 Annual District Goals Attainment

Glasbrenner noted that goals were set for climate (every student should be able to name a trusted adult) and academic progress (there was a focus on teacher training). He noted that the biggest disparity at River Valley is poverty. There are academic and climate teams at each building.

At the elementary level, Peterson noted a focus on small group instruction. To reach the climate goal, we identified students who didn't feel a connection to a trusted adult and programs were set up to do check-ins and more. By the end of the year, there was an increase in kids who felt connection. "Families" were built with one student each from 1st through 4th grade, with one adult as their family leader with monthly family activities.

At the middle school, there was a focus on small group instruction and staff were teamed up with students that didn't feel connection with a focus on kindness, assemblies, team-building and games with staff and kids. There is time on Fridays during Blackhawk period for social emotional learning with kids, including video clips and discussions on topics such as bullying.

At the high school, there was a focus on small group instruction and posting objectives in the classroom and the use of block scheduling. Blackhawk period is used as study hall. There was some work with freshman to get off to a good start with test habits and study skills. There was a focus on students who didn't feel connected and fun events were planned at school, such as games, movies, puzzles, and activities to increase social emotional learning. Mentorship with new staff will move from a one-on-one approach to a team approach. Results of a staff survey will be shared at the July Board meeting. When staff was asked if their daily work contributed to district goals, most responded that it did.

Update on School District Operations from Administration

The high school is offering summer school credit recovery. Numbers have decreased so that is a positive.

Board Reminders, Announcements, and Training Opportunities

Jennings noted that this is the last Board meeting before Krey resigns from his position of Business Manager and moves to another district. Jennings recalled her first impression of Krey when he came to his interview with a brochure, complete with a Table of Contents and summary. He went the extra mile during his interview and has made a great impression every day at work. Krey was thanked for his service, with all wishing him well and noting it was a pleasure working with him. Krey noted it has been a privilege to be hired at River Valley a second time and noted he worked with a fantastic team of administrators and district office staff.

Young noted that our high school *Momma Mia!* cast will be performing at the Jerry Awards on Sunday at the Overture Center.

Legislative Update

Governor Evers and GOP leaders have come to a budget decision with a \$325 per pupil increase in the revenue limit. Some language is concerning pertaining to testing, retention, and literacy with legislators, and not educators, making decisions.
