#### Public Comments

Per Jennings, no one from the public contacted her prior to the meeting with public comments. There were no public comments during the meeting.

#### Review of Strategic Plan

Glasbrenner noted that he studied the Strategic Plan before he came to the district and uses it on an ongoing basis for planning purposes, including the belief statements. An update with comments from Board and A-Team members on how we are meeting each strategy listed, or noting where there is work to be done, was shared at the meeting.

#### Update on School District Operations from Administration

Glasbrenner noted that he has weekly online meetings with several groups to get information related to Covid 19. The most essential is the group of Sauk County District Administrators and Tim Lawther, Sauk County Health Officer, who are making decisions together.

River Valley is planning to open for in-person schooling this fall, while also offering a virtual option, and would be ready to do a combination of both if needed. A parent survey showed 93% of parents responding want children to return to in-person schooling this fall.

Safety and academics have been the focus of discussions. Guidelines are being drafted for how to get kids back to school in an environment with the least amount of harm that allows growth for kids while trying to line up commitments with Strategic Plan goals. Families will need to ensure student health before sending kids to school. There is discussion of keeping kids in cohorts and wearing masks in common areas or when social distancing is not possible. Families that choose a virtual option will need to understand the expectations for family responsibility.

So parents get used to a consistent way of how we are “doing school,” every PreK-12<sup>th</sup> grade teacher will plan out each week and post on our website for parents to see standards, targets, and tasks for that week. Parents with kids in different grades will see a cohesive outline of goals for each classroom. Staff and parent steering committees are working on the process and forms to be used. Teachers are being offered a Professional Development Academy on July 22 and 23.

Krey noted that facilities are being revamped for non-contact versions of faucets and towel and soap dispensers. Air circulation will be increased at each building and air filters have been upgraded. Cardinal IG donated face shields for all staff members. We are adding to our supply of hand sanitizer and gloves in various sizes and looking at plexiglass shields for offices and movable shields for desks. Bussing, building entrance and exit procedures, traffic patterns and signage within buildings and for outdoor activities, and scheduling, including cohorts, are all being discussed.

Glasbrenner added that students are our number one priority, and we are opening for kids to get an education and are not opening for economic purposes.

#### Board Reminders, Announcements, and Training Opportunities

Nelson noted that the WASB Region 10 Director is looking for Board members to serve on a committee to prep resolutions for the January convention. If interested, let Nelson know.

#### Legislative Update

Glasbrenner noted that he has been attending weekly virtual meetings with various groups to discuss Covid-19 and how to return to school. He also noted that there are new literacy, physical education and personal finance academic standards coming out this year.

#### Consideration & Action on Buildings & Grounds/School Forest Committee Recommendations

Strozinsky provided an update from the Committee meeting. The Committee heard public comments regarding the potential sale of school forest property located in Lone Rock. A concern that was brought forth was that if the Village purchases the property, they would be in competition with taxpayers and have an unfair advantage over developers since the Village can use tax dollars and grants and the developer has to use their own monies.

The Committee recommends that the district offer the property to the Village of Lone Rock for \$5,000, and if they do not accept within 30 days, then we sell to the highest bidder. Board action on the sale of this property will take place later on tonight's meeting agenda.

The Committee began a review of a Stormwater Drainage Plan for the district, noted that all safety projects funded through a prior grant have been completed, heard the monthly DASHIR report, and noted that the Lone Rock timber harvest wouldn't occur at this time. It was suggested that HVAC projects be moved up on the facilities priority list with ventilation concerns during Covid-19. Krey noted that the Committee will be discussing all items on the list at their next meeting.

#### Consideration & Action on Sale of School Forest Property in Lone Rock

Strozinsky noted that the Committee recommends that the district offer the property to the Village of Lone Rock for \$5,000, and if they do not accept within 30 days, then we sell to the highest bidder.

Maier moved to open up for bid the sale of School Forest Property in Lone Rock. Jennings seconded. It was noted that the Village of Lone Rock never approached the district asking to buy but they could submit a bid if interested. Bettinger, Cates, and Young agreed that we should open up for bid. We can choose the bid that is most beneficial to the district and taxpayers, regardless of the offer amount. Motion carried.

#### Consideration & Action on Technology Committee Recommendations

Iausly provided an update from the Committee meeting. The Committee is recommending that the Budget/ERC Committee take action at their next meeting to recommend to the Board the

hiring of retired teacher Mike McDermott for a 2020-2021 Technology Integrator role at a cost not to exceed \$8,000. This position would be involved in districtwide media, video, audio, and YouTube recordings, and potentially some marketing projects.

Additional information was provided for the earlier item on this agenda regarding “Update on District Operations.” Glasbrenner noted that small groups of elementary kids will be attending summer school in August, and we will be practicing for fall on how to work with kids to follow safety guidelines. We are currently working with small groups of high school students for strength and conditioning while working with some students online for high school credit recovery. A “tech camp” idea for parents and children is being discussed. Peterson noted we would target specific children that really missed out this spring during the virtual learning. When questioned about the use of outside school facilities, Glasbrenner noted we are keeping groups to 10 or fewer in Phase 2 and following those guidelines inside and outside.

Maier moved to adjourn at 8:56 pm. Iausly seconded. Motion carried.
