Concussion Management

The purpose of this policy is to safeguard student athletes by ensuring that student athletes, school personnel and parents/guardians are educated about concussions and that the requirements specified by the District's Concussion Management Plan are fully implemented.

It is the policy of the Board that:

1. All high school athletes must complete a bi-annual baseline test prior to athletic participation.
2. Although not required, it is also strongly recommended that middle school athletes also complete a bi-annual baseline test.
3. All coaches, student athletes, and parents/guardians will be educated in concussion management as provided by the River Valley Concussion Management Plan.
4. All parents/guardians and student athletes will be required to sign the River Valley Concussion Management Plan prior to each sport season.
