762.1

Food Service Collection and Non-Payment

The District will work with families to ensure that no child is denied access to the school food service program.

The District uses a school lunch accounting system to record food service payments and to monitor food purchase transactions. The system functions as a debit system. Parents/guardians are expected to maintain their lunch account in a positive status.

Parents/guardians who claim that the financial condition of their families are such that they cannot afford to pay for the cost of their children's meals shall be invited and encouraged to make application for free or reduced meals in accordance with federal regulations.

COLLECTION OF FOOD SERVICE RELATED CHARGES

The District Administrator or designee, shall make every effort to collect all food service related charges due the District. The District shall have guidelines in place that identify criteria for debt collection.
