CESA #3 Annual Meeting Report

Glasbrenner attended a safety session where the speaker noted that metal detectors don't stop school violence and a strong PA system in the schools and securing exterior doors was emphasized.

Strategic Plan Progress Update

Glasbrenner contacted Mark Roffers to work with the district again to update our strategic plan. He will work with the architect that is hired for the facilities study and will speak with community and staff groups.

Update on School District Operations from Administration

Glasbrenner noted that a group of teachers attended Professional Learning Centers (PLC) training at CESA #3. Summer school for elementary and middle school students this year was held in August instead of June and was a successful experience. At the high school, Blakley shared that the PLC training was a great experience for staff and that student schedules have been sent out. Krey noted that interviews for choosing a company to prepare a facilities study will be held on September 12 with Board action in October. The football field is scheduled to be ready by Labor Day weekend. Child find activities were held for students coming into the ELC.

Board Reminders, Announcements, and Training Opportunities

The Board was invited to attend the August 23 all staff inservice to welcome back staff. Prior to the September 8 Board meeting, the Board will tour district schools at 5:30 p.m. Jennings reminded the Board that anyone can move to amend a motion—it's not limited to the person who made the motion. There needs to be a second to amend the motion and then a vote to accept the amendment. If accepted, vote on the amended motion. If not, go back and vote on the initial motion.

Legislative Update

The new CDC COVID guidelines for masking in schools matches what our district was already following at the end of last year and will continue for this school year.
