## **District Support Organizations**

The Board of Education supports the efforts of all organizations whose objectives are to enhance the educational experiences of District students and staff, to help meet educational needs of students, and/or provide educational benefits not provided for, at the time, by the District.

The District recognizes that parent-teacher organizations and other school-related community organizations are channels through which school personnel, parents, and other citizens may discuss educational concerns, problems, and needs and work together toward solutions.

The District Administrator is authorized to provide support and assistance as appropriate upon the request of such an organization.

The Board encourages parents, community members and District staff to participate in such organizations.

Each volunteer organization that intends to work within the school setting may only do so in compliance with all District policies and in cooperation with the Principal and other staff members, including for such activities as fundraisers, meetings, and the like.
