RE: New Full-Time Virtual Learning Opportunity (Starting 2021-22)

I am writing to inform you of a new full-time virtual learning opportunity for students residing within the boundaries of the River Valley School District, which will start with the 2021-22 school year. We are excited to provide a new format in cooperation with an outstanding charter school with specialized personnel trained in providing incredible virtual lessons for public students in Wisconsin.

We have signed an agreement with the Rural Virtual Academy (charter school) from Medford, Wisconsin in order to provide full-time virtual learning students with the “best of both worlds.” We are calling this new option **RVA@RVSD** (Rural Virtual Academy@ River Valley School District).

A student can have the flexibility of a virtual learning experience while retaining a relationship with our district. Courses such as band, choir, agriculture, or woodworking are available on campus while the majority of courses are taken virtually. Another great feature is that students can join River Valley sports teams and clubs. When choosing other virtual options, this opportunity is not available. If a family chooses to become a **RVA@RVSD** participant, you are supporting your local public school district while maintaining flexibility for your family.

Included with this letter are two brochures—one explaining the **RVA@RVSD** and all it has to offer and the other that highlights the activities and athletic offerings that have a tremendous tradition at the River Valley School District (musicals, mock trial, art club, trap team...to just name a few).

Take a look at **RVA@RVSD**. If you have questions or are interested in this full-time virtual learning format, please call me at 608-588-2551 or email me at lglasbrenner@rvschools.org.

Sincerely,

Loren G. Glasbrenner
District Administrator
