Darby Blakley-HS Principal
Lisa Kjos – Director of Special Education/Pupil Services

Additional Comments:
River Valley was put in a tough spot to find an alternative education teacher so late in the summer. Luckily we had a great candidate in our back yard named Steve Stettler. Steve has worked for River Valley, at different age levels, in different roles, and has always had success. Steve currently is our cross country coach and has a great connection with students. Steve was energetic in the interview and is excited to start his new role and to work in the school district he truly loves. Steve has many friends here and is anxious to start connecting with students as our new Alternative Education Teacher. Steve’s certification in physical education and mathematics will be a tremendous asset to the students he serves and he will work at getting emergency licensure in the area of Alternative Education during the school year.
