

## **GUIDING PRINCIPLES**

June 2020

### **I. Reasonable mitigation of risk that is within our capacity to accomplish to provide a safe learning environment for our students and staff**

- a. Implementing recommendations from CDC, DHS and DPI of preventative measures for the health and safety of all
- b. Education with parents, staff and students of plan and preventative measures

All health organizations at each level recommend:

- Social Distancing
  - Masking
  - Personal Hygiene
- c. Education with students and staff of daily preventative practices:
    - sanitizing plan
    - social distancing plan
    - screening students and staff
    - scheduling plan
    - masking
    - meal plan
    - transportation plan
    - monitoring healthy hygiene procedures

### **II. Provide instruction that meets the essential standards for each grade level**

- a. Scheduling
- b. Standards with lessons (face-to-face and virtual)
- c. Assessment/remedial plan

### **III. Prepare for and address instruction that may be virtual or blended**

- a. Staff development (focused on virtual delivery)
- b. Learning Management Plan
- c. Lesson planning that meets the standards
- d. Scheduling
- e. Providing lessons both face-to-face and virtual

## **We want our students back in school.**

We can have our buildings ready

We will have necessary supplies:

- Masks
- Sanitizer/wipes

We will need to:

- Educate and provide clear guidelines and expectations
- Develop Plans
  - Transportation
  - Food Service
  - Building Entry/Movement/Temperature Screening
  - Class Schedule
  - Flexible Attendance Policy
  - Virtual Component for Instruction
  - Use of Facilities by Groups

The challenge for schools and community is our capacity to respond to our social responsibility as individuals.

It does not matter our political or religious beliefs.

What matters is our willingness to be responsible for others and recognize the necessity of the guidelines.

Our actions will determine if schools can be open and remain open.
