

**RESOLUTION TO APPOINT
HUMAN GROWTH AND DEVELOPMENT COMMITTEE**

FOR 2020-21 and 2021-22

The River Valley School District is committed to developing a comprehensive human growth and development program to serve the needs of youth in our community. The Wisconsin State Legislature passed Act 56, the Abortion Prevention and Family Responsibility Act of 1985. This legislation encourages all schools to make available to pupils instruction in topics related to human growth and development.

Under this legislation, we are required by law to appoint an advisory committee, and this advisory committee shall develop a human growth and development curriculum and advise the school board on the design review and implementation of this curriculum.

An advisory committee is an appointed group of citizens who have an interest in and wish to assist in the development of an identified program or project. The committee acts only in an advisory capacity and is responsible for making recommendations and suggestions to the District Administrator and School Board who are empowered to act upon the advice offered.

The development and implementation of a comprehensive human growth and development program in our district can only be achieved through the assistance provided by our advisory committee.

The following people are hereby appointed to serve for two (2) years on the River Valley Human Growth and Development Advisory Committee:
